PROFESSIONAL SUMMARY

Motivated Electrical Engineering graduate with hands-on experience in electrical design, power distribution, and site engineering. Skilled in designing LV/MV systems, load calculations, and lighting systems, with practical exposure to construction and petroleum sectors. Seeking to contribute technical expertise and problem-solving skills in a dynamic engineering environment.

PROFESSIONAL EXPERIENCE

Site Engineer

Dar El-Memar (DME)

- Supervised electrical installation works on-site
- Ensured compliance with technical drawings and specifications
- Coordinated with multidisciplinary teams
- Monitored quality, safety, and project progress

Site Engineer & Technical Office

Assma AL-Tourid

- Approval of materials required for work
- Design and approval of electrical panels
- Supervised electrical installation works on-site
- Ensured compliance with technical drawings and specifications
- Coordinated with multidisciplinary teams
- Monitored quality, safety, and project progress

EDUCATION

Bachelor of Electrical Engineering

Ahram Canadian University, Cairo, Egypt

Grade: Very Good Graduation Project: Excellent

09/2019 – 07/2024

Cairo, Egypt

TECHNICAL SKILLS

Electrical Design & Analysis

Load calculation, cable sizing, short circuit analysis

Power Systems

LV/MV distribution, switchgear design

Lighting Design

DIALux evo, DIALux

Software

AutoCAD, Revit, MS Office

Automation

PLC Programming, Motor Drives

TRAINING & CERTIFICATIONS

Electrical Distribution Training

Hassan Allam Technologies (2021)

Electrical Distribution Training

Beheira Electricity Distribution Company (2022)

Professional Diploma in Electrical Distribution

EDUVAT (2023)

Training Program

El-Wastani Petroleum Company (2023)

PLC Programming & Motor Drives

HA Consultant Group (2023)

Training Program

Dar El-Memar (DME)

LANGUAGES

Arabic

Native

English

Very Good

GRADUATION PROJECT: ELECTRICAL DESIGN FOR MEDICAL PARK PREMIER

Electrical Design for Medical Park Premier

- Load estimation and space planning
- Panel schedules and equipment sizing
- MV & LV switchgear design
- Cable sizing, voltage drop, and short circuit calculations
- Light current systems (CCTV, Access Control, Sound Systems)

SOFT SKILLS

Teamwork and collaboration

Strong communication skills

Time management and organization

Continuous learning mindset

5S methodology
